

Aphasiology, Volume 16, 2002

Contents

Number 1/2, January–February

Special issue: Cognitive neuropsychological approaches to spoken word production

Guest editor: Lyndsey Nickels

- 3 Lyndsey Nickels, Theoretical and methodological issues in the cognitive neuropsychology of spoken word production
- 20 Matthew Goldrick and Brenda Rapp, A restricted interaction account (RIA) of spoken word production: The best of both worlds
- 56 Matthew A. Lambon-Ralph, Lynne Moriarty, Karen Sage, and The York Speech Therapy Interest Group, Anomia is simply a reflection of semantic and phonological impairments: Evidence from a case-series study
- 83 Rita Sloan Berndt, Martha W. Burton, Anne N. Haendiges, and Charlotte C. Mitchum, Production of nouns and verbs in aphasia: Effects of elicitation context
- 107 Nadine Martin and Eleanor M. Saffran, The relationship of input and output phonological processing: An evaluation of models and evidence to support them
- 151 Wendy Best, Ruth Herbert, Julie Hickin, Felicity Osborne, and David Howard, Phonological and orthographic facilitation of word-retrieval in aphasia: Immediate and delayed effects
- 169 Carolyn E. Wilshire, Where do aphasic phonological errors come from? Evidence from phoneme movement errors in picture naming
- 198 David Howard and Kathryn Smith, The effects of lexical stress in aphasic word production
- 238 Subject index

Number 3, March

Papers

- 243 Dawn R. Francis, Nina Clark, and Glyn W. Humphreys, Circumlocution-induced naming (CIN): A treatment for effecting generalisation in anomia?
- 261 Gail V. Pashek and Connie A. Tompkins, Context and word class inferences on lexical retrieval in aphasia
- 287 Ana Inés Ansaldi, Martin Arguin, and André Roch Lecours, Initial right hemisphere take-over and subsequent bilateral participation during recovery from aphasia
- 305 Katrina Keil and Alfred W. Kaszniak, Examining executive function in individuals with brain injury: A review
- 337 Gail Ramsberger and Barbara Rende, Measuring transactional success in the conversation of people in aphasia
- 355 Rhonda B. Friedman and Susan Nitzberg Lott, Successful blending in a phonologic reading treatment for deep alexia

Number 4/5/6, April–May–June**Special issue: 31st Clinical Aphasiology Conference****Guest editor: Patrick J. Doyle**

- 381 *Patrick J. Doyle*, Preface
- 383 *Esther Ruigendijk and Roelien Bastiaanse*, Two characteristics of agrammatic speech: Omission of verbs and omission of determiners, is there a relation?
- 397 *Annette Baumgaertner and Connie A. Tompkins*, Testing contrasting accounts of word meaning activation in Broca's aphasia: Experiences from a cross-modal semantic priming study
- 413 *S.J.C. Doesborgh, W.M.E. van de Sandt-Koenderman, D.W.J. Dippel, F. van Harskamp, P.J. Koudstaal, and E.G. Visch-Brink*, The impact of linguistic deficits on verbal communication
- 425 *Argye E. Hillis, Amy Kane, Elizabeth Tuffiash, Norman J. Beauchamp, Peter B. Barker, Michael A. Jacobs, and Robert J. Wityk*, Neural substrates of the cognitive processes underlying spelling: Evidence from MR diffusion and perfusion imaging
- 439 *Brenda Rapp and Amy Kane*, Remediation of deficits affecting different components of the spelling process
- 455 *Sasha Yampolsky and Gloria Waters*, Treatment of single word oral reading in an individual with deep dyslexia
- 473 *Pelagie M. Beeson, Fabiane M. Hirsch, and Molly A. Rewega*, Successful single-word writing treatment: Experimental analyses of four cases
- 493 *Anastasia M. Raymer, Lauren Rowland, Melissa Haley, and Bruce Crosson*, Nonsymbolic movement training to improve sentence generation in transcortical motor aphasia: A case study
- 507 *Amy P. Lustig and Connie A. Tompkins*, A written communication strategy for a speaker with aphasia and apraxia of speech: Treatment outcomes and social validity
- 523 *Kathryn L. Garrett and Christine Huth*, The impact of graphic contextual information and instruction on the conversational behaviours of a person with severe aphasia
- 537 *Margaret Lehman Blake, Joseph R. Duffy, and Connie A. Tompkins*, Prevalence and patterns of right hemisphere cognitive/communicative deficits: Retrospective data from an inpatient rehabilitation unit
- 549 *Mary Purdy*, Executive function ability in persons with aphasia
- 559 *Connie A. Tompkins, Margaret Lehman Blake, Annette Baumgaertner, and Wiltrud Fassbinder*, Characterising comprehension difficulties after right brain damage: Attentional demands of suppression function
- 573 *Laura L. Murray*, Cognitive distinctions between depression and early Alzheimer's disease in the elderly
- 587 *Brooke Hallowell, Robert T. Wertz, and Hans Kruse*, Using eye movement responses to index auditory comprehension: An adaptation of the Revised Token Test
- 595 *Katarina L. Haley*, Temporal and spectral properties of voiceless fricatives in aphasia and apraxia of speech
- 609 *E. Maas, J. Barlow, D. Robin, and L. Shapiro*, Treatment of sound errors in aphasia and apraxia of speech: Effects of phonological complexity
- 623 *Gloria Streit Olness, Hanna K. Ulatowska, Robert T. Wertz, Jennifer L. Thompson, and Linda L. Auther*, Discourse elicitation with pictorial stimuli in African Americans and Caucasians with and without aphasia

- 635 *Patricia M. Roberts, Linda J. Garcia, Alain Desrochers, and Denise Hernandez*, English performance of proficient bilingual adults on the Boston Naming Test
- 647 *Elizabeth Armstrong*, Variation in the discourse of non-brain-damaged speakers on a clinical task
- 659 *Carl A. Coelho, Kathleen M. Youse, and Karen N. Le*, Conversational discourse in closed-head-injured and non-brain-injured adults

Number 7, July

Review

- 683 *S. Amebu Seddoh*, How discrete or independent are "affective prosody" and "linguistic prosody"?

Papers

- 693 *Sam-Po Law and Man-Yee Cheng*, Production of grammatical morphemes in Cantonese aphasia
- 715 *Jane Mertz Garcia, Kathryn L. Garrett, Jane T. Pimentel, and Robert G. Garcia*, Clinical services for aphasia: A survey of university clinics
- 727 *Jamie F. Mayer and Laura L. Murray*, Approaches to the treatment of alexia in chronic aphasia
- 745 *Tammy Hopper, Audrey Holland, and Molly Rewega*, Conversational coaching: Treatment outcomes and future directions
- 763 *Robert C. Marshall, Colleen M. Karow, Donald B. Freed, and Patricia Babcock*, Effects of personalised cue form on the learning of subordinate category names by aphasic and non-brain-damaged subjects
- 773 Book review

Number 8, August

Papers

- 779 *Richard K. Peach*, Treatment for phonological dyslexia targeting regularity effects
- 791 *Katherine B. Ross and Robert T. Wertz*, Relationships between language-based disability and quality of life in chronically aphasic adults
- 801 *Grace H. Park, Malcolm R. McNeil, and Patrick J. Doyle*, Lexical access rates of closed-class elements during auditory sentence comprehension in adults with aphasia
- 815 *Malcolm R. McNeil, Patrick J. Doyle, Grace H. Park, Tepanta R.D. Fossett, and Martin B. Brodsky*, Increasing the sensitivity of the Story Retell Procedure for the discrimination of normal elderly subjects from persons with aphasia
- 823 *William H. Irwin, Robert T. Wertz, and Jan R. Avent*, Relationships among language impairment, functional communication, and pragmatic performance in aphasia
- 837 *Nina Simmons-Mackie, Chris Code, Elizabeth Armstrong, Lillian Stiegler, and Roberta J. Elman*, What is aphasia? Results of an international survey
- 849 Book Review

Number 9, September

Special issue: New techniques for identifying the neural substrates of language

Guest editor: Argye E. Hillis

- 855 *Argye E. Hillis*, Preface to special issue: New techniques for identifying the neural substrates of language and language impairment
- 859 *Julius Fridriksson, Audrey L. Holland, Bruce M. Coull, Elena Plante, Theodore P. Trouard, and Pelagie Beeson*, Aphasia severity: Association with cerebral perfusion and diffusion

- 873 *Tracy Love, David Swinney, Eric Wong, and Richard Buxton*, Perfusion imaging and stroke: A more sensitive measure of the brain bases of cognitive deficits
- 885 *Argye E. Hillis and Jennifer Heidler*, Mechanisms of early aphasia recovery
- 897 *Ola A. Selnes, Peter C.M. van Zijl, Peter B. Barker, Argye E. Hillis, and Susumu Mori*, MR diffusion tensor imaging documented arcuate fasciculus lesion in a patient with normal repetition performance
- 903 *Nathan E. Crone and Lei Hao*, Functional dynamics of spoken and signed word production: A case study using electrocorticographic spectral analysis

Number 10/11, October–November

Special issue: Rehabilitation of spoken word production in aphasia

Guest editor: Lyndsey Nickels

- 935 *Lyndsey Nickels*, Therapy for naming disorders: Revisiting, revising and reviewing
- 981 *Julie Hickin, Wendy Best, Ruth Herbert, David Howard, and Felicity Osborne*, Phonological therapy for word-finding difficulties: A re-evaluation
- 1001 *Miranda Rose, Jacinta Douglas, and Thomas Matyas*, The comparative effectiveness of gesture and verbal treatments for a specific phonologic naming impairment
- 1031 *Anastasia Raymer and Tina A. Ellsworth*, Response to contrasting verb retrieval treatments: A case study
- 1047 *Lyndsey Nickels*, Improving word finding: Practice makes (closer to) perfect?
- 1061 *Ruth B. Fink, Adelyn Brecher, Myrna F. Schwartz, and Randall R. Robey*, A computer implemented protocol for treatment of naming disorders: Evaluation of clinician-guided and partially self-guided instruction
- 1087 *Sue Franklin, Frauke Buerk and David Howard*, Generalised improvement in speech production for a subject with reproduction conduction aphasia
- 1115 *Britta Biedermann, Gerhard Blanken, and Lyndsey Nickels*, The representation of homophones: evidence from remediation
- 1137 Subject index

Number 12, December

Review

- 1143 *Keith A. Hawkins and Scott Bender*, Norms and the relationship of Boston Naming Test performance to vocabulary and education: A review

Papers

- 1155 *Judy Perkins Walker, Tracy Daigle, and Melissa Buzzard*, Hemispheric specialisation in processing prosodic structures: Revisited
- 1173 *Susanne Gahl*, Lexical biases in aphasic sentence comprehension: An experimental and corpus linguistic study
- 1199 *M. L. Madden, M. L. Oelschlaeger, and J. S. Damico*, The conversational value of laughter for a person with aphasia
- 1213 *Brooke-Mai Whelan, Bruce E. Murdoch, Deborah G. Theodoros, Peter Silburn, and Bruce Hall*, A role for the dominant thalamus in language? A linguistic comparison of two cases subsequent to unilateral thalamotomy procedures in the dominant and non-dominant hemispheres
- 1227 Book review
- 1231 Volume 16—Contents
- 1235 Volume 16—Author index
- 1236 Volume 16—List of reviewers
- 1236 Erratum: Pashek, G.V., & Tompkins, C.A. (2002). Context and word class influences on lexical retrieval in aphasia. *Aphasiology*, 16(3), 261–286.
